Why is Junior year Important?

Your junior year marks the halfway point of your high school journey!

This is an important year to focus and get serious about **post high school planning**, whether that means college(2- year, 4 year or technical), **joining the military** or entering the **workforce**. Now is the time to think about your future, **visit colleges**, find out your skills and interests, get an **internship**, or **volunteer**.

What Should I be Doing?

- Explore career interests
- Step out of your comfort zone
- Maintain Good Grades
- Begin building your resume and continue to volunteer hours in Xello
- Discuss college and career options with your family/counselor

Have fun!

Junior Year!!!

Tips and Reminders!

Focus on your grades

Maintain strong grades, as this is the final full academic year that colleges, the military, and scholarship committees will typically review before making their decisions.

Seek out leadership opportunities

A great way to give yourself a competitive edge is through your involvement in extracurricular activities. Strive to take on leadership roles and responsibilities.

Stay organized

Use your cell phone calendar or invest in a planner. Keep track of all tests, assignments, and the due dates.

Get involved in extracurricular activities

There's no one-size-fits-all way for you to be engaged in school or in the community. Clubs, sports, and volunteering are all great ways to be involved.

Balance your academics and social life

Make meaningful and productive plans for the summer, as it may be the last full summer spent with childhood friends and family...so make the most of it! Have fun, but also take time to create a senior year checklist. This will help you transition smoothly into your final year, ensuring you are well-prepared.

By the way......Are you on track to graduate?

SAT

WHAT'S THE DIFTERENCE?

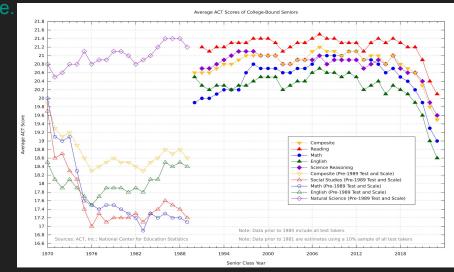

ACT vs SAT: How Different Are They?

Because all US colleges and universities accept scores from either the ACT or SAT, there's no advantage in taking one test over the other. This means you can apply to the same schools, regardless of which test you decide to

At a glance, the two tests aren't that different. Both the ACT and SAT are nationally recognized standardized tests and common admission requirements for US schools. Catering primarily to high school juniors and seniors, each test measures students' proficiency in various critical skill areas—such as problem solving and reading comprehension—that are necessary for college success.

ACT vs SAT: How Different Are They?

	ACT	SAT
Total Time	2 hrs 55 mins without Writing 3 hrs 35 mins with Writing	2 hrs 14 minutes total
Order of Sections	 English Math Reading Science Writing (optional) 	Reading and Writing (Module 1 and 2) Math (Module 1 and 2)
Time Per Section	English: 45 mins Math: 60 mins Reading: 35 mins Science: 35 mins Writing (optional): 40 mins	Reading and Writing: 64 mins (two 32-min modules Math: 70 mins (two 35-min modules)
# of Questions	English: 75 questions Math: 60 questions Reading: 40 questions Science: 40 questions Writing (optional): 1 essay	Reading and Writing: 54 questions Math: 44 questions

ACT vs SAT: How Different Are They?

	ACT	SAT
Scoring	Total score range: 1-36 Each section uses a scale of 1-36. Your total score is the average of your four section scores. The optional Writing section uses a scale of 2-12 and does not count toward your final score.	Total score range: 400-1600 The Reading and Writing and Math sections each use a scale of 200-800 and are combined for a total score.
Cost	\$63 without Writing \$88 with Writing	<u>\$60</u>
Who Accepts Scores?	Accepted by all colleges and universities in the US	Accepted by all colleges and universities in the US

11TH GRADE COLLEGE PLANNING TIMELINE

EVALUATE YOUR EDUCATION OPTIONS AND MAKE A LIST

Now is the time to follow a more specific path. Your list of colleges and programs should include schools that meet your most important criteria for examples: size, location, cost, academic majors, or special programs). Go to college fairs, attend college nights, and speak with representatives who visit your high school.

TAKE THE PSAT®

Taking the test qualifies you for the National Merit Scholarship program, which means you could earn money for college. In addition, it's a good way to practice for the SAT.

PETERSON'S®

For more information visit www.Petersons.com

STAY INVOLVED WITH EXTRACIRRICULAR ACTIVITIES

Colleges look for consistency and depth in the non-academic activities you pursue. Taking on leadership roles and making a commitment to the same groups are more important than trying out tons of new activities each year. Remember to have fun!

Consider whom you want to ask to

write your recommendations now

and let them know so they'll have

time to prepare before getting

tons of requests in the fall. Ask

teachers who know you well and

who will have positive things to

say, Letters of recommendation

from a coach or activity leader are

also valuable.

ORGANIZE A TESTING AND PREP PLAN CONTACT YOUR RECOMMENDATION WRITERS

Figure out when you'll be taking important tests like the SAT[®], ACT[®], SAT[®] Subject Tests, and AP® exams, and mark the dates on your calendar. If you qualify for special testing accommodations because of a learning disability, you may need to register for tests early to ensure you get the support you need. Create your own study plan, or lean on a prep resource like Peterson's.

STAY ON TRACK WITH YOUR CLASSES AND GRADES

We've said it before and we'll say it again. Keep your grades up! Even if your grades haven't been that good so far, it's never too late to improve. Colleges like to see an upward trend. Talk to your guidance counselor to ensure that you have the credits you need to graduate and remain a competitive applicant.

START WORKING ON YOUR APPLICATION ESSAYS Compose rough drafts of the essays you'll need for your

drafts. Don't forget to proofread your final essays a few

college applications. Have a teacher read and discuss them with you so you can make improvements. Make any revisions to your application essays and prepare final

ORGANIZE YOUR FINANCIAL AID INFORMATION

Develop a plan that includes a list of the aid sources, requirements for each application, and a timetable for meeting the filing deadlines. Getting organized will make the process of applying a lot easier.

VISIT COLLEGES

Visit the campuses of your top college choices. Take a tour and speak with the admissions and financial aid staff. If you have friends or relatives in college, talk to them about what college life is like. Although it's important to hear what the admissions staff has to say about a school, it's also important to get the students' perspective.

APPLY FOR A SUMMER JOB OR INTERNSHIP

Summer employment and internships in fields you're interested in will look appealing on a college application or resume. The money you earn can also be used to help pay application and testing fees in the fall.

Next year will be what you make it!!!

Dr. Ralita Cheeks
